This is an Int'l edition, ISBN and cover can differ from the US edition, Contents same as US edition. This best corresponds to what is asked to do on tests and promotes long-term retention of skill. · Additional concept Questions increase text exercises to focus on the deeper and theoretical understanding of key concepts in computing. Rewrite examples 1-3 accordingly. Removal of discussion of tabular integration and associated exercises. Updated discussion of 8.5 on how to find constants in the method of partial fractions. Updated in 8.8 to align with standard use in statistics. Added new exercises: 8.1: 41-44; 8.2: 53-56, 72-73; 8.3: 75-76; 8.4: 49-52; 8.5: 51-66, 73-74; 8.8: 35-38, 77-78; PE: 69-88. Chapter 9: Added new example 3 with Figure 9.3 to illustrate how to build a slope field. Added new Exercises: 9.1: 11-14; PE: 17-22, 43-44. Chapter 10: Clarified the differences between a sequence and a series. Add new Figure 10.9 to illustrate the sum of a series as an area of an histogram. Adding 10.3 a discussion on the importance of limiting errors in approximations. Additional new figure 10.13 which illustrates how to use the whole to limit the remaining terms of partial sums. Rewrote Theorem 10 in 10.4 to highlight the similarity with the integral comparison test. Added new Figure 10.16 to illustrate the different behaviors of the harmonic and harmonic alternation series. Renamed the nth-Term Testing the "nth-Term Test for Divergence" to underline that it does not say anything about convergence. Added the new figure 10.19 to illustrate the convergent polynomials in $\ln(1+x)$, which illustrates the convergence on the open half range $(-1, 1)$. Red dots and intervals used to indicate intervals and points where theand blue to indicate convergence, throughout chapter 10. 10.:6.41 ;4414 :5.41 ;8575 .64834 .03802 :4.41 ;4018301 ,47817 .06895 ,45815 :3.41 ;45815 :2.41 :izicrese ivoun ituuggA .ililbairav elled aznednepid al onaruttac ehc acifraihc ehc ,ãaznednepid id imehcsã emoc ãocnort id immarginãidã itanimoniR .olotipac li ottut ni ,otnup nu da ilanoizerid itavired e itneidarg ,ilaizrap itavired id enoizatulav al rep atazidradnats enoizatoN .1.41 len esuilh e etrepa inoiger elled enoissuscid allus otarobalE .41 olotipaC.2ã1 :6.31 ;82ã72 :4.31 ;02ã91 ,61ã51 :2.31 ;63ã72 ,4ã1 :1.31 :izicrese ivoun ituuggA .cce ,uat ,appak emoc ehcerg erettel eraicnunorp emoc us ilaretal errab id atnuiggA .Ã31 olotipaC.25ã94 :5.21 ;75ã15 :4.21 ;81ã71 :3.21 ;44ã34 :2.21 ;67ã37 ,06ã95 ,43ã13 :1.21 :izicrese ivoun ituuggA .otardauq li ondatelpmoc enigiro'la atartneci non ediossille nu id enoizircsed al onartsulli ehc 84.21 arugif avoun e 4 oipmesE ovoun noc .6.21 ni ilareneg ehcirdauq icifrepus ellus enoissuscid atnuiggA .erottev nu id enoizeiorp al erartsulli rep 3.21 ni 62.21 arugif e 7 ipmese ivoun ituuggA .A.erottev nu id gnilacs id otteffe'l erartsom rep)b(31.21 arugif avoun atnuiggA .Ã21 olotipaC.42ã12 :4.11 ;05ã94 :2.11 ;82ã91 :1.11 :izicrese ivoun ituuggA .iralop evruc elled inoizesretni el erartsulli rep 4.11 ni 73.11 arugif e 3 ipmese ivoun ituuggA .Ãu gnippalrevo non e ovitisor r id inoizãdnoc el ereduclni rep iralop etandirooc el rep etanroigga aera id inoizalumrof .ataziztemarap avruc anu id otterid oipmese omirp nu erad rep 1.11 ni 2.11 arugif al e 1 oipmese ovoun li otnuiggA .Ã11 ,21ã8311 :9.01 ;04ã93 ,42ã32 :8.01 ;56ã16 :7.01 ;28ã75 :6.01 ;66ã56 ,64ã54 :5.01 ;65ã55 :4.01 ;24ã93 ,21ã11 :3.01 ;501 ,67ã37 ,22ã91 :2.01 ;77ã27 ,03ã72 :1.01 :izicrese ivoun ituuggA .aznegrevoe id ollavretni nu id .Ãtilibissop esrevit ies el erartsom rep 12.01 arugif avoun al lig odnavitom ,etra'd ozcep e olobmis ,alorap ingo otaredisnoicir' heh' sirhc e ssaH leoj irotua-oC erotidnev otseuq erattãnoC | erotidnev otseuq us inoizãmrofini iroiggaM 57534711 # erotidnev led oiratnevni .odibrom oihcrepoc notlipresed kooB :gnitaR erotidnev gnitaR laidn! ihleD weN(teksãB ym ni skooB .erotidnev 02 : .ÃitnauQ ovoun 1140603539879 :31 NBSI 9140603539 :01 NBSI)8102(AIDNI NOSRAEP ad otacilbbuP ssaH leoj dna samohT .atseihcir al eritseg rep tnemucoDerorre nu erazzilltu id ovitatnet li etnarud dnuoF toN 404 erorre nu otartnocsir otats .Ã ,ertlonl .erotturti nu ad otseihcir odnauq olos otatsiucqa eresse ebbervod baLyM .asulcni non acitametaM MTbaLyM .isselpmoc iremun us 7A xidneppa etorweR :secidneppa.4ã1 :8.61 ;6ã1 :7.61 ;05ã94 :6.61 ;6ã1 :4.61 ;64ã14 ,83ã73 :2.61 :izicresE ivoun ituuggA .Ã25.61 arugif alla emeinsi 6.61 len elaicifrepus onematneiro'lled atanroigga enoissuscid .neerG id ameroet la enoissennoc al eriraihç rep 4,61 len 3 oipmese'lled enoizulos al etevircsR .3.61 len elazinetop aigrene'lled onges led enoissuscid atnuiggA .2.61 len aenil id ilargetni ilg rep asicerp enoizatoN .Ã.elairottev opmac nu id elargetni aenil anu erartsulli rep 81.61 arugif avoun atnuiggA .Ã.etneidarg id opmac nu erartsulli rep 71.61 arugif avoun atnuiggA .Ã.enoizuf anu id elargetni aenil anu erartsulli rep 4.61 arugif avoun atnuiggA .Ã61 olotipaC.22ã1 :7.51 ;44ã93 :6.51 ;82ã72 ,61ã51 :1.51 :izicrese ivoun ituuggA .6.51 enoizes alla 7 e 6 ,5 ipmese ivoun ituuggA .elilbairavitlum enoizargetni id enoizacilpãa emoc etnuignoc .Ãtililaborp id inoizubirtsid ellus
